

## QUESTIONNAIRE – WATER SAMPL

To provide suitable water treatment solution for you, we need information about the use and quality of water.

Please note following when taking the water sample:

Before you take sample, let the water flow from tap for a while to ensure that sample water has not sat in pipeline.

Rinse the sample water bottle well with running water before taking the sample.

Fill the bottle to the brim so that no air is left inside (0,5 litre bottle is enough).

Date of sample taken \_\_\_\_\_ / \_\_\_\_\_ 20.....

Water source: \_\_\_\_\_ drilled well/bore \_\_\_\_\_ surface well \_\_\_\_\_ communal water

Water taken from: \_\_\_\_\_ tap \_\_\_\_\_ the well

Household size: \_\_\_\_\_ family(es) \_\_\_\_\_ persons

Domestic animals: \_\_\_\_\_ nbr.

Drainage \_\_\_\_\_ yes \_\_\_\_\_ no

What problems have you noticed in the water?

Smell \_\_\_\_\_

Taste \_\_\_\_\_

Colour \_\_\_\_\_

Sediment/crud \_\_\_\_\_

Other information: \_\_\_\_\_

Name \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_
